PROFESSIONAL SUMMARY

Aspiring AI/ML Engineer and first-year B.Tech student at Lovely Professional University, with a strong foundation in mathematics, programming, and problem-solving. Passionate about Artificial Intelligence, Machine Learning, and data-driven technologies, with a keen interest in building intelligent systems that solve real-world problems. Actively developing skills in Python, data structures, and core AI/ML concepts while exploring emerging technologies such as deep learning and generative AI. A highly motivated learner committed to continuous growth, innovation, and contributing to impactful technological advancements.

EDUCATION

B-Tech in Computer Science Engineering

Aug 2025 - Sep 2029

[lovely professional university](#) • Phagwara • GPA: 7.44/10

Achievements - Hackathon Winner(collage level)

Achievements - Hackathon Winner

SKILLS

Technical Skills

Python Html Css Javascript C Sql Mongodb

Soft Skills

Leadership Time management Communication

Languages

Hindi English

PROJECTS

AI-Powered-Personalized-Learning-Path-Generator

An AI-Powered Personalized Learning Path Generator is an intelligent, web-based educational system designed to create customized learning roadmaps for users by leveraging Generative AI and machine learning techniques. By analyzing user inputs—such as existing skills, career goals, learning style (e.g., video vs. text), and available time—the system generates a dynamic, step-by-step learning journey, complete with modules and resources, that adapts to individual performance.
